

# CAREER OPPORTUNITIES

## PHP WEB DEVELOPER (m/w/d)

**Location: Innsbruck or Vienna**

**We are seeking an experienced, motivated PHP developer who likes to work in an international and agile environment. You will work on varied projects and drive innovation to build a scalable and performant platform for our internal and external stakeholders.**

### Responsibilities

- Write efficient, testable, and reusable PHP code
- Take ownership of projects and drive innovation for our platform.
- Work together in an agile team and solve complex problems.
- Deliver tested and sustainable outcomes.

### Qualifications

- 3+ years of experience in web development
- Profound knowledge of PHP
- You have worked with modern PHP frameworks such as Laravel or Symfony
- Knowledge of relational databases
- Basic understanding of frontend technologies, such as CSS, JavaScript, etc.
- Experienced in working with REST APIs
- Experience with one or more of the following is a plus: Elasticsearch, Google Cloud APIs, AWS, Puppet, Redis

### We offer:

- Stimulating work-environment in an international team
- Flexible working hours
- Free fruits, coffee, tea and yoghurts in office
- Free access to various sports options
