

# Web Developer (m/f/d)

**Innsbruck or Vienna, Austria**

Come Join Our Passionate Team! At Barracuda, we make the world a safer place. We believe every business deserves access to cloud-enabled, enterprise-grade security solutions that are easy to buy, deploy, and use. We protect email, networks, data and applications with innovative solutions that grow and adapt with our customers' journey. More than 220,000 organizations worldwide trust Barracuda to protect them — in ways they may not even know they are at risk — so they can focus on taking their business to the next level.

## **What you'll be working on**

- Build efficient, testable, and reusable PHP and/or JS modules for an international online training and documentation platform
- Integrate new customer-facing features using state-of-the-art web technologies
- Do you prefer back-end or front-end development? Or both? We have numerous tasks and will make sure that your strengths are utilized.
- Succeed together with a team of experienced web developers

## **What you bring to the role**

- Understanding of at least one PHP framework such as Laravel, Zend, etc. or solid knowledge of a JavaScript framework like Vue.js, react, etc.
- Knowledge of code version control systems like Subversion or Git
- Understanding of relational databases

## **What would be good if you had**

- Knowledge of writing integration testing with PHPUnit
- Comfortable with Scrum and continuous integration
- The ability to deliver outcomes in an agile team

## **What you'll get from us**

- A challenging position in a talented and motivated team
- A pleasant and international working environment with various benefits
- The possibility to drive innovation and to take ownership of your projects
- Mentorship by experienced developers
